

RENAULT TRAFIC

designed for efficiency

Available in 2 lengths and a choice of van or a crew cab, Renault Traffic can be customised to meet your needs.

Office on wheels, connectivity with smartphone replication, on-board comfort, loading length and volume – everything has been optimised.

advanced driver assistance systems

4.15 m loading length*

6.7m³ of loading volume*

2.5-tonne towing capacity*

84 litres of storage space*

* depending on version.

designed to make your life easier

The exterior design of Renault Traffic is functional, dynamic and elegant. With impressive technology, advanced safety features, and a practical and comfortable cabin, Traffic is your perfect mobile office.

The 100% LED C-shaped headlamps allow for better night vision.

optimal loading space

With a best-in-class loading length of 4.15 m⁽¹⁾ using the ingenious load-through flap⁽¹⁾ under the passenger bench seat and up to 2.5-tonne* towing capacity, nothing stops Renault Trafic.

overseas model shown

4.15 m loading length thanks to the load-through flap under the passenger bench seat⁽¹⁾

The loading volume of up to 6.7 m³ means you have plenty of space for everything you need: tools, supplies, bulky items, rubble, and more.

overseas model shown

6.7 m³ of loading volume⁽¹⁾

The vehicle also features two⁽²⁾ lights in the loading area and up to 16 anchoring points.

overseas model shown

up to 16 anchoring points and two lights in the loading area

(1) 4.15m load length and 6.7m³ cargo bay volume on LWB Premium versions thanks to load-through flap under the passenger beach seat.

(2) one light on crew versions.

* 2.5-tonne towing on MT versions

maximum versatility

Renault Traffic crew versions can carry up to 6 people. Transport your whole team when you need all of them for your projects.

crew lifestyle

The seats on Traffic Crew Pro can be folded forward, freeing up space in the cargo area. Make use of the space in different ways, and transform the rear into a ready to use workshop.

take your office with you

Equipped with a mobile office* layout, Renault Trafic has everything you need: its wide central seat folds down so you can put a tablet, a computer or even its integrated A4 document holder on it.

mobile office*: back of the central folding seat designed to hold your folders or computer

Comfort is guaranteed with its lumbar-adjustable driver's seat. It also offers a substantial 84 litres* of cabin storage space.

mobile office

With generous storage in the doors, on the dashboard, and even under the passenger bench seat, your belongings can be easily organised!

storage under the bench seat*

05. advanced driver assistance systems

advanced driver assistance systems

Renault Traffic is equipped with a suite of innovative advanced driver assistance systems.

"zoning" function
For independently locking or unlocking either the front doors or the loading area.

airbags
Front and side airbags protect the driver and passengers against violent impacts.

adaptive cruise control
After the cruising speed is set by the driver, this system assists with speed management by setting a minimum distance from the vehicle in front. *Standard on Premium and Lifestyle, not available on Pro.*

lane departure warning
Warns the driver if the vehicle is approaching or drifting into another lane without intending to (without first activating the indicator). *Limited availability on MY23 Crew Lifestyle. Please confirm specification with your dealer prior to ordering.*

traffic sign recognition and overspeed prevention
Helps the driver avoid speeding by informing them of current speed limits (via GPS info). When the speed limiter is on, OSP proposes a new limit if the set limit is different from the allowed one. *Standard on Lifestyle, optional on Premium, and not available on Pro*

active emergency braking system
Alerts the driver of imminent frontal collision risks, at low speed (from 7km/h to 80km/h), if no action is taken by the driver, the system triggers emergency braking to avoid or mitigate the impact of a collision. At speeds of 80km/h - 170km/h, the system will alert the driver to brake if a collision risk is detected.

blind spot warning
This system warns the drivers of vehicles in their blind spot, helping avoid collisions. *Standard on Premium and Lifestyle, optional on Pro.*

parking sensors
Radar sensors facilitate your manoeuvres by warning you with audio and visual signals when there are any obstacles around you.

driver attention alert
This system analyses the driver's behaviour and warns of any risk of fatigue. If excessive fatigue is detected, the system recommends the driver to take a break with a visual and audible message on the instrument panel. *Optional on Premium, not available on Pro or Lifestyle.*

automatic high/low beam headlight activation
This system works using a camera positioned at the top of the windscreen. The camera analyses the light flows based on lighting and traffic conditions. *Standard on Premium and Lifestyle, optional on Pro.*
