

AUSTRALIA'S ONLY  
**10 YEAR**  
300,000KM WARRANTY  
WHEN SERVICING WITH NISSAN\*

Pathfinder Defy Ordinary

The Nissan Pathfinder boasts a combination of versatile design, comfortable seating across three rows, cutting edge technology and a broad suite of the latest Nissan Intelligent Mobility safety features.

With a powerful V6 engine, 9-speed automatic transmission and Intelligent 4x4<sup>^</sup> with seven drive and terrain modes\*, it's no longer about where you adventure; but who you are when you come home.

The Nissan Pathfinder. Defy ordinary.

\* Cover page: Up to 10 years or 300,000km (whichever occurs first), when servicing at authorised Nissan dealers. Full terms at [Nissan.com.au/warranty](https://www.nissan.com.au/warranty).  
^ Available on 4x4 models only.

Pathfinder TI-L model shown with premium paint and black painted roof available at extra cost shown throughout (unless otherwise stated).

## 3.5L V6 Petrol engine

The impressive 3.5L V6 petrol engine offers dynamic performance at every turn. With 202kW power and 340Nm of torque on tap, you'll feel confident on the road, from overtaking at highway speeds to hauling the family with toys in tow.

## 9-speed automatic transmission

With steering wheel mounted paddle shifters, you're able to feel the quick response and enhanced control from the 9-speed automatic transmission at your fingertips. Made with fuel efficiency in mind.

## Towing

With all that power comes great towing capacity. Nissan Pathfinder puts you in control of 2,700kg maximum braked towing capacity\* so you can bring more of your favourites, and return to rugged.

\* Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download. The maximum towball download for this vehicle is 270kg.

Pathfinder Ti-L model shown with premium paint, black painted roof and optional accessories available at extra cost.

# Intelligent 4x4

More grip means less slip. Pathfinder's Intelligent 4x4\* system features a direct coupling system that delivers enhanced traction paired with precise and stable handling. You'll enjoy immediate and responsive traction with minimal wheel slippage.

# Dial in adventure

Select one of up to seven drive and terrain modes on 4x4 models, each specifically designed to match the environment – whether that's snow, sand, mud or towing. Select Auto mode for everyday driving, Sport mode for overtaking, or Eco mode to help you maximize efficiency.

SPORT

TOW

ECO

SNOW

SAND

MUD / RUT

# Hill Start Assist^ and Hill Descent Control^

When you travel steeper paths, Hill Start Assist^ helps prevent rollback on inclines whilst Hill Descent Control^ helps you descend steep grades at a controlled speed.

\* Available on 4x4 models only.  
^ Driver's aid(s) only, not a substitute for safe driving. Always monitor your surroundings when driving.  
Pathfinder Ti-L model shown with premium paint, black painted roof and optional accessories available at extra cost.

# ProPILOT<sup>Δ</sup>

ProPILOT<sup>Δ</sup> allows you to enjoy your highway commute by automatically keeping up with traffic flow and helping keep you centered in your lane through a combination of automated steering, acceleration and braking. This intelligent safety technology helps ease driver workload in heavy highway traffic and long commutes at the push of a button.

## Intelligent Around View<sup>®</sup> Monitor with Moving Object Detection<sup>\*</sup>

Keep your pride and your wheels intact. The Intelligent Around View<sup>®</sup> Monitor makes parking easier with a virtual composite 360 degree birds-eye view of your Pathfinder. You can select front, rear and curb side views for a better look. The system also gives you an on-screen alert when it detects moving objects near your vehicle.

## Intelligent Rear View Mirror<sup>^</sup>

Rear view mirrors are simple and effective. But when you're driving around the entire family, or loaded up with cargo, there are limitations to what you can see. Using a camera installed at the rear of the vehicle, this technology allows the driver to switch between regular mirror view and the digital view fed by a camera. The camera view displayed on the screen mimics the appearance of a traditional mirror, but without potential obstructions.

<sup>Δ</sup> ProPILOT cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic and road conditions. System has limited control capability and the driver may need to steer, brake or accelerate at any time to maintain safety.

<sup>\*</sup> Driver's aid(s) only. It cannot completely cover blind spots and may not detect moving objects. Always check surroundings before moving vehicle.

<sup>^</sup> Ti-L model only. Driver's aid only, not a substitute for safe driving. Always monitor your surroundings when driving.

## Call it protective instinct.

Be surrounded with the suite of Nissan Intelligent Mobility safety features that can monitor in front, behind and on either side of your Pathfinder and can step in when you need it most.

### Intelligent Emergency Braking

By monitoring speed and distance between your Pathfinder and the vehicle ahead, Intelligent Emergency Braking\* can automatically engage the Pathfinder's brakes to help avoid a frontal collision or lessen the severity of an impact. And when it detects a pedestrian in the crosswalk, it can stop you in your tracks.

### Intelligent Rear Automatic Braking

Like having eyes in the back of your head, Pathfinder watches for stationary items behind you that may be hidden from your view. Large or small, Intelligent Rear Automatic Braking\* will detect objects before they are viewable in the rear-view mirror. And it assists in collision avoidance by warning the driver and braking automatically when there is a risk of collision.

### Rear Cross Traffic Alert

Perfect for tight parking lots. Rear Cross Traffic Alert\* assists the driver in avoiding a collision by warning the driver of vehicles approaching from either side when reversing, making sure every angle is covered.

### Intelligent Blind Spot Intervention

Blind spots are a thing of the past, as Pathfinder can determine whether it's safe to change lanes. If there is a vehicle detected when changing lanes, Intelligent Blind Spot Intervention\* can gently apply braking force to help move you back to your lane.

### Intelligent Lane Intervention

Stay between the lines. When lane markings are clear, Intelligent Lane Intervention\* can detect if you're straying out of your lane and can tap the brakes to help gently guide you back.

\* Driver's aid(s) only, not a substitute for safe driving.  
Always monitor your surroundings when driving.

## Ruggedly designed

The Nissan Pathfinder has been designed from the ground up to convey a sense of strength and capability.

This authentic look features a wide stance, strong Nissan V-motion front grille, wheel arch flares and short front overhang.

An optional black painted roof\* is available, and a bold satin chrome 'Pathfinder' badge rests proudly across the width of the tailgate to complete the rugged design.

# The best view from every seat

The Nissan Pathfinder range lets you choose from an 8-seat cabin configuration (2:3:3) on ST-L & Ti models or opt for the 7-seat cabin configuration (2:2:3) on Ti-L models featuring second-row captains chairs. Defy ordinary in an interior crafted to feel like a sanctuary after long days out.

## A Second row captains chairs

Captains chairs, standard on the Ti-L model, bring first-class comfort to the second row. The centre console provides loads of extra storage space, and can be removed to allow easy access to the third row seats.

## B EZ FLEX® seating system

No more musical chairs just to load up the family. The EZ FLEX® seating system features Latch and Glide® that makes for easy access to the third-row seats. Just push a button, and the seat automatically tilts and glides forward – even if there’s a child seat attached – and works from both sides of the vehicle.

## C Tri-zone automatic climate control & rear-door sunshades

The Nissan Pathfinder makes it easy to achieve the optimal cabin environment for any situation. Standard tri-zone automatic climate control means you and your co-pilots can find comfort with three individual temperature controls. Those in the second row can set their own temperature too. Built-in sliding rear-door sunshades are standard on Ti & Ti-L models to help remove the heat from direct sunlight.

> Latch element of the Latch and Glide® Technology requires ISOFIX compatible child seats. Do not perform the slide forward function with the child restraint system occupied.

## Cutting edge displays and connectivity

The available 12.3" Advanced Drive-Assist® Display instrument cluster\* features digital gauges and is fully customizable, letting you pull up a map display, turn-by-turn directions, driving-aid information and much more via steering wheel mounted controls.

## 9.0" touchscreen display with satellite navigation

Big, bold, and easy to read. A 9.0" touchscreen display with satellite navigation is standard across the Pathfinder range, so you can map your road trips easily and in high-definition. Android Auto™ device mirroring is standard, as well as wireless Apple CarPlay®^, meaning you no longer have to plug-in your iPhone®.

## Bose® 13 speaker premium audio system~

You choose the soundtrack, and the Pathfinder will make sure it sounds great through the Bose® premium audio system. Custom engineered for the Pathfinder interior, it surrounds you in excellent sound pouring out through 13 speakers — including a dual subwoofer.

## 10.8" Head-Up Display

Eyes on the road, and the stats. The 10.8" Head-Up Display serves essential information, including speed, next-turn directions and more, which are projected onto your windshield, keeping your eyes on the road ahead.

~ Ti & Ti-L models only.

\* Ti-L model only.
