S = Standard    O = Factory Option that can be ordered before a vehicle is manufactured at an additional cost  
P = Part of a Pack that can be ordered before a vehicle is manufactured at an additional cost    A = Accessory fitted at Ford Dealer at an additional cost  
Some features may be impacted by the removal of the standard load box fitted to the vehicle.

Disclaimer:

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations.   2. Mud/Rut Mode intended for off-road use only.   3. Sand Mode intended for off-road use only.   4. Baja Mode intended for off-road use only.   5. Rock Crawl Mode intended for off-road use only.   6. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use.   7. Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible orderable combination of factory fit equipment. Tare Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded.   8. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard.   9. Vehicle length measured from front license plate bracket.   10. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h.   11. Inclusive of tow bar where standard.

**Disclaimer:**  
**12.** Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard. **13.** Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery's engine starting performance. **14.** Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected.

**Disclaimer:**  
**15.** Leather accented refers to seats with a combination of real and artificial leather. No leather in 2nd row middle seat. **16.** Wireless Charging only available with compatible phones. **17.** Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/fordpass](https://ford.com.au/fordpass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass function-ality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the 3G or 4G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings. **18.** BANG & OLUFSEN© 2024 and B&O© 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. **19.** Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. **20.** Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordPass App account (terms apply), have fully activated the vehicle's FordPass Connect modem and have SYNC Location set to 'on'. **21.** Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates. **22.** Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay/Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions.

**Disclaimer:**  
**23.** Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off. **24.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **25.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **26.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Speed Assist (ISA) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISA system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISA can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner's Manual for details of the limitations of the ISA system before activating. On Ranger models with Satellite Navigation, in some circumstances, ISA will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **27.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. **28.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Road Edge Detection designed for use on rural roads at speeds of 65 – 110km/h. The feature does not detect every edge and does require a level of contrast between the road surface and the edge. **29.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner's Manual for Limitations. **30.** Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner's Manual for more information. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. **31.** Analogue Rear View Camera is provided and will need to be fitted to the vehicle by a body builder. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **32.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **33.** Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XLS, XLT, Sport, Wildtrak, Platinum, and Raptor models. Available as part of a pack at additional cost on XL. The standard Genuine Ford tow pack on XLS, XLT, Sport, and Raptor models do not include a tow hitch, which is available at an additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and refer to the Owner's Manual. **34.** Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. **35.** Trailer Light Check requires a Genuine Ford Tow Bar to be fitted and can be used via SYNC, or via FordPass app as a Connected Service. Where used via the app as a Connected Service, eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date after which time, the Connected Service may cease to be available, or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply) and have fully activated the vehicle's FordPass Connect modem to use this feature via the app. **36.** Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected. Drop In Bedliner may be trimmed to accommodate mounting brackets.

Some features may be impacted by the removal of the standard load box fitted to the vehicle.

Disclaimer:

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations.   2. Mud/Rut Mode intended for off-road use only.   3. Sand Mode intended for off-road use only.   4. Baja Mode intended for off-road use only.   5. Rock Crawl Mode intended for off-road use only.   6. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use.   7. Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible orderable combination of factory fit equipment. Tare Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded.   8. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard.   9. Vehicle length measured from front license plate bracket.   10. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h.   11. Inclusive of tow bar where standard.

Disclaimer:

**12.** Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard. **13.** Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery's engine starting performance. **14.** Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected.

**Disclaimer:**  
**15.** Leather accented refers to seats with a combination of real and artificial leather. No leather in 2nd row middle seat. **16.** Wireless Charging only available with compatible phones. **17.** Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/fordpass](https://ford.com.au/fordpass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass functionality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the 3G or 4G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings. **18.** BANG & OLUFSEN® 2024 and B&O® 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. **19.** Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. **20.** Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordPass App account (terms apply), have fully activated the vehicle's FordPass Connect modem and have SYNC Location set to 'on'. **21.** Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates. **22.** Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions.

Disclaimer:

**23.** Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off. **24.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. **25.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner’s Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **26.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Speed Assist (ISA) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISA system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISA can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner’s Manual for details of the limitations of the ISA system before activating. On Ranger models with Satellite Navigation, in some circumstances, ISA will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **27.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. **28.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. Road Edge Detection designed for use on rural roads at speeds of 65 – 110km/h. The feature does not detect every edge and does require a level of contrast between the road surface and the edge. **29.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner’s Manual for Limitations. **30.** Driver-assist features are supplemental and do not replace the driver’s attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner’s Manual for more information. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. **31.** Analogue Rear View Camera is provided and will need to be fitted to the vehicle by a body builder. Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. **32.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for more information. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **33.** Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XLS, XLT, Sport, Wildtrak, Platinum, and Raptor models. Available as part of a pack at additional cost on XL. The standard Genuine Ford tow pack on XLS, XLT, Sport, and Raptor models do not include a tow hitch, which is available at an additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and refer to the Owner’s Manual. **34.** Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. **35.** Trailer Light Check requires a Genuine Ford Tow Bar to be fitted and can be used via SYNC, or via FordPass app as a Connected Service. Where used via the app as a Connected Service, eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date after which time, the Connected Service may cease to be available, or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply) and have fully activated the vehicle’s FordPass Connect modem to use this feature via the app. **36.** Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery’s engine starting performance.

Disclaimer:

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 2. Mud/Rut Mode intended for off-road use only. 3. Sand Mode intended for off-road use only. 4. Baja Mode intended for off-road use only. 5. Rock Crawl Mode intended for off-road use only. 6. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use. 7. Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible orderable combination of factory fit equipment. Tare Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded. 8. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard. 9. Vehicle length measured from front license plate bracket. 10. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h. 11. Inclusive of tow bar where standard.

**Disclaimer:**  
<sup>15</sup>. Leather accented refers to seats with a combination of real and artificial leather. No leather in 2nd row middle seat. <sup>16</sup>. Wireless Charging only available with compatible phones. <sup>17</sup>. Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/fordpass](https://ford.com.au/fordpass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass functionality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the 3G or 4G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle’s surroundings. <sup>18</sup>. BANG & OLUFSEN© 2024 and B&O© 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. <sup>19</sup>. Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. <sup>20</sup>. Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordPass App account (terms apply), have fully activated the vehicle’s FordPass Connect modem and have SYNC Location set to ‘on’. <sup>21</sup>. Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates. <sup>22</sup>. Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. P = Part of a Pack that can be ordered before a vehicle is manufactured at an additional cost    A = Accessory fitted at Ford Dealer at an additional cost

**Disclaimer:**  
23. Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off. 24. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 25. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. 26. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Speed Assist (ISA) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISA system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISA can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner's Manual for details of the limitations of the ISA system before activating. On Ranger models with Satellite Navigation, in some circumstances, ISA will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. 27. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. 28. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Road Edge Detection designed for use on rural roads at speeds of 65 – 110km/h. The feature does not detect every edge and does require a level of contrast between the road surface and the edge. 29. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner's Manual for Limitations. 30. Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner's Manual for more information. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. 31. Analogue Rear View Camera is provided and will need to be fitted to the vehicle by a body builder. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 32 Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. 33. Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XLS, XLT, Sport, Wildtrak, Platinum, and Raptor models. Available as part of a pack at additional cost on XL. The standard Genuine Ford tow pack on XLS, XLT, Sport, and Raptor models do not include a tow hitch, which is available at an additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and refer to the Owner's Manual. 34. Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. 35. Trailer Light Check requires a Genuine Ford Tow Bar to be fitted and can be used via SYNC, or via FordPass app as a Connected Service. Where used via the app as a Connected Service, eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date after which time, the Connected Service may cease to be available, or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply) and have fully activated the vehicle's FordPass Connect modem to use this feature via the app. 36. Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected. Drop In Bedliner may be trimmed to accommodate mounting brackets.

**Some features may be impacted by the removal of the standard load box fitted to the vehicle.**

Disclaimer:

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 2. Mud/Rut Mode intended for off-road use only. 3. Sand Mode intended for off-road use only. 4. Baja Mode intended for off-road use only. 5. Rock Crawl Mode intended for off-road use only. 6. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use. 7. Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible orderable combination of factory fit equipment. Tare Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded. 8. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard. 9. Vehicle length measured from front license plate bracket. 10. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h. 11. Inclusive of tow bar where standard.

**Disclaimer:**  
**15.** Leather accented refers to seats with a combination of real and artificial leather. No leather in 2nd row middle seat. **16.** Wireless Charging only available with compatible phones. **17.** Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/fordpass](https://ford.com.au/fordpass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass function-ality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the 3G or 4G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings. **18.** BANG & OLUFSEN© 2024 and B&O© 2024. BANG & OLUFSEN™ and B&O™ are registered trade-marks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. **19.** Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. **20.** Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordPass App account (terms apply), have fully activated the vehicle's FordPass Connect modem and have SYNC Location set to 'on'. **21.** Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates. **22.** Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions

**Disclaimer:**  
**23.** Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off. **24.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **25.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **26.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Speed Assist (ISA) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISA system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISA can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner's Manual for details of the limitations of the ISA system before activating. On Ranger models with Satellite Navigation, in some circumstances, ISA will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **27.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. **28.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Road Edge Detection designed for use on rural roads at speeds of 65 – 110km/h. The feature does not detect every edge and does require a level of contrast between the road surface and the edge. **29.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner's Manual for Limitations. **30.** Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner's Manual for more information. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. **31.** Analogue Rear View Camera is provided and will need to be fitted to the vehicle by a body builder. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **32.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **33.** Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XLS, XLT, Sport, Wildtrak, Platinum, and Raptor models. Available as part of a pack at additional cost on XL. The standard Genuine Ford tow pack on XLS, XLT, Sport, and Raptor models do not include a tow hitch, which is available at an additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and refer to the Owner's Manual. **34.** Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. **35.** Trailer Light Check requires a Genuine Ford Tow Bar to be fitted and can be used via SYNC, or via FordPass app as a Connected Service. Where used via the app as a Connected Service, eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date after which time, the Connected Service may cease to be available, or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply) and have fully activated the vehicle's FordPass Connect modem to use this feature via the app. **36.** Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected. Drop In Bedliner may be trimmed to accommodate mounting brackets. **37.** Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery's engine starting performance.

S = Standard    O = Factory Option that can be ordered before a vehicle is manufactured at an additional cost  
P = Part of a Pack that can be ordered before a vehicle is manufactured at an additional cost    A = Accessory fitted at Ford Dealer at an additional cost

**Disclaimer:**  
1. 98RON fuel is required to achieve the kW and Nm numbers stated. 2. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 3. Mud/Rut Mode intended for off-road use only. 4. Sand Mode intended for off-road use only. 5. Baja Mode intended for off-road use only. 6. Rock Crawl Mode intended for off-road use only. 7. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use. 8. Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible orderable combination of factory fit equipment. Tare Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the heaviest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded. 9. Optional 20" Alloy Wheels with All Season Tyres have a Rear Gross Axle Weight Rating of 1,900kg, a reduction of 59kg. 10. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In or Spray-In Bedliner where standard. 11. Vehicle length measured from front license plate bracket. 12. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h. 13. Inclusive of tow bar where standard.

Disclaimer:

**22.** Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/fordpass](https://ford.com.au/fordpass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass functionality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the 3G or 4G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings.    **23.** BANG & OLUFSEN® 2024 and B&O® 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved.    **24.** Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible.    **25.** Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordPass App account (terms apply), have fully activated the vehicle's FordPass Connect modem and have SYNC Location set to 'on'.    **26.** Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates.    **27.** Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions.    **28.** Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off.    **29.** Driver- assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information.    **30.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee.    **31.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Intelligent Speed Assist (ISA) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISA system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISA can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner's Manual for details of the limitations of the ISA system before activating. On Ranger models with Satellite Navigation, in some circumstances, ISA will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee.    **32.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system.    **33.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Road Edge Detection designed for use on rural roads at speeds of 65 – 110km/h. The feature does not detect every edge and does require a level of contrast between the road surface and the edge.

Disclaimer:

**34.** Driver- assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **35.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner's Manual for Limitations. **36.** Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner's Manual for more information. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. **37.** Analogue Rear View Camera is provided and will need to be fitted to the vehicle by a body builder. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. **38.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **39.** Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XLS, XLT, Sport, Wildtrak, Platinum, and Raptor models. Available as part of a pack at additional cost on XL. The standard Genuine Ford tow pack on XLS, XLT, Sport, and Raptor models do not include a tow hitch, which is available at an additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details. **40.** Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. **41.** Trailer Light Check requires a Genuine Ford Tow Bar to be fitted and can be used via SYNC, or via FordPass app as a Connected Service. Where used via the app as a Connected Service, eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date after which time, the Connected Service may cease to be available, or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply) and have fully activated the vehicle's FordPass Connect modem to use this feature via the app. **42.** Load Rest (XL/XLS), Sports Bar (XLT/Sport), Sports Hoop/Sailplane, Aluminum Tie Down Rails and Power Roller Shutter (Wildtrak) and Box Top Protective Capping with Load Box Access Caps not available when Canopy option selected. Drop In Bedliner may be trimmed to accommodate mounting brackets. **43.** Flexible Rack System has a maximum load limit 80kg (dynamic) and 250kg (static). Manual set-up required. Removal of antenna mast recommended when cargo positioned over antenna. Removal may affect availability of radio, satellite and connected services. **44.** Optional 20" Alloy Wheels with All Season Tyres have a Rear Gross Axle Weight Rating of 1,900kg, a reduction of 59kg. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Axle Weight Ratings are not exceeded. **45.** Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery's engine starting performance. **46.** BANG & OLUFSEN© 2024 and B&O© 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. **47.** Drop-in bedliner in lieu of spray-in bedliner and Load Box Access Caps not included when Power Roller Shutter option selected on Raptor.
