Disclaimer:

**1.** Auto Stop/Start will not occur in all situations. **2.** Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that this fuel consumption and emissions figure will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, condition and use. **3.** Proper functioning requires use of Diesel Exhaust Fluid (AdBlue®) which must be refilled periodically. AdBlue® is a registered trademark of VDA Verband der Automobilindustrie e.V.

Disclaimer:

**4.** Connected Built-In Satellite Navigation is a Connected Service where eligible vehicles receive 1 year of service from the Ford Express New Vehicle Warranty start date, after which time the service may cease to be available or may be subject to a subscription fee. Users must have created a FordPass App account (terms apply), have fully activated the vehicle's FordPass Connect modem and have SYNC Location set to 'on' to use this feature. **5.** Use of FordPass is subject to the FordPass Terms and Privacy Policy available on [ford.com.au/FordPass](https://ford.com.au/FordPass) and requires a compatible mobile device, internet access and software (including software updates from time to time). FordPass functionality and appearance may change over time due to software updates. You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. The FordPass Connect modem will only function on the telecommunications networks it could use at time of manufacture. When all compatible networks for the modem in your vehicle are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well-ventilated areas where you are aware of your vehicle's surroundings. **6.** BANG & OLUFSEN © 2024 and B&O© 2024. BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive System Manufacturing Kft. All rights reserved. **7.** Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. **8.** Don't drive while distracted. Use voice-operated systems when possible and don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all SYNC 4 features are compatible with all phones. SYNC screen appearance and functionality may change over time due to software updates. **9.** Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. **10.** Wireless charging only available on compatible phones. **11.** Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations. **12.** Intelligent Adaptive Cruise Control (iACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. **13.** Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off.

Disclaimer:

**14.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for details and limitations. Intelligent Speed Limiter (ISL) uses various data to limit the set speed of the vehicle to the speed limit detected by the system. The ISL system will not always detect the correct speed limit and may limit a vehicle speed above or below the actual speed limit. ISL can be temporarily overridden by the driver firmly pressing the accelerator. Customers should read the Owner’s Manual for details of the limitations of the ISL system before activating. In some circumstances, ISL will use map data to limit the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **15.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for details and limitations. Pre-collision Assist with Autonomous Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. Intersection Assist does not detect all vehicles in intersection, pedestrians or cyclists. These do not replace safe driving. See Owner’s Manual for Limitations. **16.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for details and limitations. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. **17.** Driver-assist features are supplemental and do not replace the driver’s attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner’s Manual for details and limitations. Traffic Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. In some circumstances Traffic Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle’s FordPass Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. **18.** Not available for Active. Option available at additional cost for Titanium X. **19.** Prestige paint colours available at additional cost. **20.** Subject to State and Territory regulations. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with all standard equipment. Additional weight of optional features must be taken into account when calculating kerb weight. **21.** Subject to State and Territory regulations. Payload is defined as the Gross Vehicle Mass minus the kerb weight. Payload is the maximum combined value of occupants, cargo, added options, added structures and tow ball download (when towing). GVM must not be exceeded. **22.** Maximum towing capacity braked using a genuine Ford tow pack, optional at additional cost. Subject to State and Territory regulations. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and / or refer to the Owner’s Manual. **23.** Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. **24.** VDA is the method determined by filling the load space with ‘litre’ blocks, each measuring 200x100x50mm. The blocks are then counted and the numerical result is converted into cubic litres.
