Drive your Ambition

OUTLANDER

GET READY TO ROCK

Buckle up and turn it up – Mitsubishi have amped things up to eleven in the new Outlander. With front row massage seats, stadium-quality Dynamic Yamaha Sound throughout, a panoramic sunroof, bold lines and a show-stopping leather interior, new Outlander is ready to roll on your next adventure.

DEMAND THE SPOTLIGHT

Agile and adventurous, the new Outlander stands proud with distinctive LED headlights, sculpted sides, horizontal rear profile, and head-turning 20 inch alloys*. Plus, you're always ready to rock with Mitsubishi's legendary Super-All Wheel Control technology – giving you the green light to tackle any terrain and never miss a beat.

*20 inch alloys available on Aspire, Exceed & Exceed Tourer only.

A wide-angle, high-quality photograph of the interior of a Mitsubishi Outlander Exceed Tourer. The view is from the driver's perspective, looking towards the front passenger seat. The dashboard and center console are finished with a light brown leather-like material, featuring horizontal stitching. A large, rectangular infotainment screen is mounted in the center of the dashboard, displaying a 'Lumbar massage settings' menu with options for 'Relaxing', 'Power', 'Intensity', and 'Speed'. The steering wheel is black with the Mitsubishi logo in the center. The front seats are upholstered in a matching light brown leather with a quilted pattern on the side bolsters. The rearview mirror is a wide, rectangular digital display showing a clear view of the road ahead. The windows show a bright, hazy outdoor scene with rolling hills. The overall lighting is warm and natural, highlighting the textures of the interior materials.

AN INSIDE FOR OUT THERE

The new Outlander's interior space is expertly crafted down to the finest detail. From the exacting finish of the trim materials to the cosy support of the climate-responsive seating, you'll always adventure in luxury and comfort.

Exceed Tourer model shown.

Ventilated Front Seats

For greater driving comfort, especially in warm weather, ventilation from the back rest and seat base draw out and disperse unwanted hot air.

Heated front and second row seats

Heated seat cushions and seat backs swiftly warm up to provide you welcome comfort on chilly travel days.

DRIVEN TO ADVENTURE

As well as the enhanced acceleration, cornering, and braking provided by the new Outlander's Super All-Wheel Control (S-AWC)*, there are also six^ specialised drive modes to handle any terrain you take on. Whether you're navigating busy city streets, conquering slippery off-road trails, or tackling everything in-between, these performance enhancers adapt to the task, delivering the control, confidence and experience you want.

Drive modes can be selected based on the road surface and the driver's preference.

Super All-Wheel Control (S-AWC)*

S-AWC – new Outlander's full-time integrated 4WD control system – optimises driving and braking force for each wheel, enhances acceleration, improves cornering, and increases stability in all driving conditions.

- 4WD** For excellent traction performance, the electronically-controlled 4WD precisely distributes driving force between the front and rear tyres instantly.
- AYC** Provides optimal control of drive/braking force between right and left wheels to achieve high turning performance and driving stability.
- ASC** Controls braking force and motor output to prevent skidding whilst driving and tyre spinning when starting.
- ABS** Prevents tyres from locking during emergency braking and steering wheel operation.

Note: Some equipment may vary by market. Please consult your local MITSUBISHI MOTORS dealer/distributor for details. S-AWC is a driver support system that assists the driver with braking and driving operations.

As with vehicles without this system, safe driving is required such as decelerating before entering a curve. The driver is always responsible for safe and attentive driving. *MUD drive mode not available on 2WD models. *AWD models only.

SOUND TRAVELS

Mitsubishi's exceptional engineering works in concert with Yamaha's legendary craftsmanship to deliver the ultimate soundtrack to your adventures. Outlandishly immersive sound quality and a range of listening modes lets you optimise every drive with the push of a button.

Dynamic Sound YAMAHA Ultimate / Premium

Dynamic Sound YAMAHA Ultimate

Inspired by Yamaha's flagship NS-5000 speaker, 12 dedicated speakers are employed, with the front 3-way configuration delivering localised instruments and vocals high up for enhanced sound presence.

Dynamic Sound YAMAHA Premium

Powerful bass and clear highs are achieved in a compact 2-way system comprising 8 speakers. The rear speakers feature woofers and tweeters integrated into a single unit to enable a wide range of sound expression.

Choose your own sound

You have the choice of four sound modes* and a range of listening positions to perfectly suit your mood. In addition, Speed Compensated Volume (SCV) provides consistent audio quality across all driving situations.

High quality audio with Speed Compensated Volume (SCV)*

You can enjoy high quality audio even on rough roads or at high speeds. To maintain clear bass sounds, both volume and equalisers are adjusted based on vehicle speed through the SCV function. In addition, five listening position settings allow you to enjoy ideal sound even more.

Four sound modes* in tune with listeners' emotions

LIVELY

Ideal for energetic beats and crisp vocals – you'll feel like dancing while you're driving (but we don't recommend it).

SIGNATURE

Brings out the emotive tones and textures of vocals and instrumentation for an immersive journey.

POWERFUL

Feel the power coursing through you as it elevates your mood and makes the drive even more fun.

RELAXING

Enjoy the passing scenery and the conversation while soothing background music enhances the ride.

*Dynamic Sound YAMAHA Ultimate only.

WIDE OPEN SPACES

Designed with a luggage compartment spacious enough for any adventure, the new Outlander also offers flexible seat configurations to accommodate items both long and large. Just a tip: alongside your gear, you'll be bringing home some awesome memories too.

Power remote tailgate with hands-free access

Open the rear tailgate hands-free by placing your foot under the rear bumper.

The tailgate's opening height is adjustable to fit under varied garage ceiling heights.

Cargo room

The enhanced cargo room and wider gate opening make loading and unloading luggage a more convenient and hassle-free experience.

- 1. Height: **51.8cm**
- 2. Width: **107cm**
- 3. Depth: **97.4cm**

EXPLORE WITH EASE

The new Outlander comes equipped with a wide range of helpful innovations. From advanced driving technologies to enhanced comfort and convenience features, they're all designed to make you a happier, more confident driver.

Advanced equipment

The new Outlander is equipped with advanced features that enhance rearward visibility and reduce driving fatigue. Additionally, a wireless charger lets you simply place your device on the charging pad. ^

Windscreen Head-Up Display (HUD)*

The large 10.8", full-colour windscreen Head-Up Display allows essential driver assistance and navigation information to be shown within the drivers forward field of view for improved driver awareness and reduced eye movement from the road ahead.

Frameless Rearview Mirror with Digital Monitor*

A frameless, auto-dimming rearview mirror with digital monitor displays reward image using a camera mounted in the rear windscreen providing clear, unobstructed rearward view even if cargo or passengers completely block the driver direct rearward visibility.

Smartphone wireless charger*

The front console tray features a wireless charger that allows Qi-enabled smartphones to charge simply by placing them on it, eliminating the need for a charge cable.

Full Digital Driver Display

A wide 12.3" full digital driver display offers crisp and clear view for fast comprehension of important driver information, as well as customisable views and access to vehicle and driver assist menu options.

^Excludes ES models. *Excludes ES and LS models. +Exceed and Exceed Tourer models only.

Comfortable equipment

The new Outlander's interior is designed to provide a more comfortable cabin space. No matter which seat you choose, every passenger can enjoy a relaxing travel experience.

3-zone automatic air conditioning*

Temperature settings can be adjusted independently for the driver, front passenger and rear seats. Rear-seat air outlets and control switches are conveniently located on the back of the floor console.

Power panoramic sunroof*

The panoramic power sunroof features a wider opening to add a more spacious feel to the interior.

Pull-up type sunshade*

A sunshade extends from the rear door trim to effectively reduce glare from direct sunlight, further enhancing rear seat comfort.

Powered seating memory*

Along with the memory switch, the registered driver/front passenger seat and side mirror positions can be recalled. Also linked to the key is the driver memory settings, including air-conditioning and navigation preferences.

Storage space

New Outlander provides plenty of easy-to-use storage space for everyday items like wallets, smartphones, and drinks.

Glove box

A glove box on the instrument panel opens to provide ample storage space for small travel items.

Floor console box with armrest

An easy-to-reach floor console box situated between the front seats offers another versatile storage option.

Front seatback pockets

Convenient seatback pockets provide storage for smartphones, keys and other small essentials.

Bottle holders

The bottle/cup holders are carefully positioned to be in easy and safe reach for the driver.

*Exceed and Exceed Tourer models only.

SAFE TRAVELS

Be your family's safe pair of hands. The new Outlander's advanced safety features include 7 SRS airbags and a range of driver assistance systems to identify and warn of potential hazards, so you can take on adventures without taking unnecessary risks.

The confidence to keep moving

When you drive with confidence, you can fully immerse yourself in each drive. The Mitsubishi Outlander offers top-class safety and enhanced passenger protection with 7 SRS airbags. What's more, advanced driver assistance systems help identify potential risks around the vehicle, enabling you to avoid collisions before they occur.

- Predictive Forward Collision Warning
- Adaptive Cruise Control [ACC]
- Lane Departure Warning [LDW]
- Rear Cross Traffic Alert [RCTA]
- Blind Spot Warning [BSW]
- Driver Monitoring System [DMS]
- Multi Around Monitor
