- Weights/mass/volumes/dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories, towing or otherwise relying on this value.
- Charging duration is approximate only and may vary depending on environmental and charging conditions, type of charger and method used. Actual charging times may differ. Frequent use of DC fast charging can impact battery performance and durability. Toyota recommends minimising DC fast charging usage. DC fast charging speed will reduce after the battery is charged to 80%. Refer to Owner's manual and toyota.com.au/electrified/battery-electric-vehicles/charging-your-bev for guidance.
- Charging time when charging with a DC charger with 150kW (400 A) output.
- Indicative charging time based on 150kW DC charging at an ambient temperature of around 0°C.
- Dimensions are approximate and are subject to individual vehicle variances, accessory fitment and weight carried.
- Fitment of towbar requires deactivation of the kick boot sensor feature. Towing capacity subject to regulatory requirements, tow bar and vehicle design and towing equipment limitations. Ask your Dealer for Toyota Genuine tow bar capacity and availability details.
- Results were achieved under test conditions and do not reflect the driving range in real world driving. Results achieved for battery electric bZ4X Electric SUV is based on consumption rate of 138 Wh/km using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) accepted by the ADR 81/02 (displayed on the Energy Consumption label affixed to the car). The electric range and the energy consumption values were determined using a fully charged battery in a laboratory test and are not reflective of real world driving. Actual driving range may vary depending on accessories fitted, battery age and condition, climate, driving style, use of heating/cooling, traffic conditions, and vehicle load. For more information, please visit toyota.com.au/electrified/faqs

- Product and company names are trademarks of their respective owners.
- Only Qi-supported devices compatible. Refer to device manufacturer. May require additional purchase of accessory to support wireless charging.
- Vehicle to Load (V2L) supports electrical devices with a combined power consumption of up to 1500W at 220 VAC. V2L does not support Vehicle to Home (V2H) or Vehicle to Grid (V2G) charging. V2L is powered using the high voltage battery and extended use will decrease driving range. Never leave the vehicle unattended when using the V2L system. Refer to Owner's Manual for guidance.

Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage, call centre capabilities and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual or toyota.com.au/connected for explanation of limitations. Please drive safely.

16 Automatic Collision Notice: Driver assist feature only. Not a substitute for safe driving practices. Not available outside Australia, if service disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Only activates if vehicle's DCM detects airbag deployment or impact sensor notification. Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage, operational related components and other factors outside Toyota's control which can limit the ability or functionality of system. Check your Owner's Manual or toyota.com.au/connected for explanation of limitations. Please drive safely.

17 Complimentary period ends 1 year from delivery date. Fees apply thereafter. See toyota.com.au/connected/plans-packages. Requires activated DCM (until the earlier of 2033 or Telstra 4G sunset), compatible device, app installation/connection, third party info, mobile data, Australian network reception, GPS signal, enabled push notifications and other factors outside Toyota's control which can limit functionality. Mobile usage at user's cost. Features vary depending on vehicle model and subscription choice, and subject to change. For details see toyota.com.au/connected/connect-app

18 Stolen Vehicle Tracking: Not available outside Australia, if service disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Dependent on sufficient battery power, 3G/4G enabled DCM, GPS signal strength, mobile network coverage, operational related components and other factors outside Toyota's control which can limit the ability or functionality of system. Owner/driver required to obtain Police report. Vehicle location information, if available, only provided to Police. Vehicle recovery not guaranteed.
