MECHANICAL SPECIFICATIONS		bZ4X Touring	
ELECTRIC MOTOR	Type	Permanent Magnet Synchronous Motor	
	Maximum (kW)	Front motor	167
		Rear motor	167
	Maximum output – system (kW)		280
	Model code front/rear (AWD)		2XM
	Max torque (Nm)	Front	268.6
Rear		268.6	
BATTERY AND CHARGING	Battery type		Lithium-ion battery
	Number of battery cells		104
	Voltage per cell		3.76
	Total voltage (V)		391
	Traction battery capacity (Ahr)		191
	Battery Capacity (kWh) – Gross		74.7
	Mode 2 and Mode 3 charging cables		Included
	AC charging ² – 10-100%	7kW Single-Phase charging	approx. 9 hours 30 mins
		11kW 3-Phase charging	approx. 7 hours
		22kW 3-Phase charging	approx. 3 hours 30 mins
	150 kW DC charging ² – 10-80%		approx. 30 mins
	AC Input – standard		Type 2
	DC Input – quick charge		CCS2
Max AC charging power (kW)		22	
DC charger maximum output (kW)		150	
STEERING	Gear type		Rack and Pinion
	Type		Electric Power Steering
	Lock to lock		2.81
SUSPENSION	Front		MacPherson strut
	Rear		Double wishbone
	Stabilizer bar – front and rear		Torsion bar
BRAKES	Type – front and rear		Ventilated disc brake
	Front diameter		17" Disc
	Rear diameter		17" Disc
	Regenerative braking system with paddle control		•

- Weights/mass/volumes/dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories, towing or otherwise relying on this value.
- Charging duration is approximate only and may vary depending on environmental and charging conditions, type of charger and method used. Actual charging times may differ. Frequent use of DC fast charging can impact battery performance and durability. Toyota recommends minimising DC fast charging usage. DC fast charging speed will reduce after the battery is charged to 80%. Refer to Owner's manual and toyota.com.au/explore/electrified/charging-your-toyota for guidance.
- Dimensions are approximate and are subject to individual vehicle variances, accessory fitment and weight carried.
- Maximum vehicle braked towing capacity is subject to state and federal regulatory requirements. Before towing, customers should consider the vehicle's limitations, including towing capacity specifications, gross vehicle mass (GVM), gross combined mass (GCM), kerb weight specified by the manufacturer, and ensure that individual front and rear axle load limits are not exceeded as also specified by the manufacturer. Vehicle payload calculation is GVM less kerb weight or as otherwise specified in the vehicle owner's manual. Actual payload is affected by any added load to the vehicle, including the number of occupants, luggage, accessories, and tow ball download weight. It is important to consider the actual payload, to ensure the fully loaded vehicle remains within the specified GVM limits. For more details, please refer to the vehicle's Owner's Manual/ Toyota Basic Towing Guide or consult your authorised dealer. Toyota recommends use of a Load Distribution Hitch (LDH) when towing loads greater than half of the vehicle's GVM or as specified in the Owner's Manual. Based on road conditions, a LDH may not be suitable. Refer to [Toyota Basic Towing Guide](#). Toyota Genuine LDH sold separately at additional cost. Warranty conditions apply. Refer to [Toyota Warranty Advantage Guide](#).
- Results were achieved under test conditions and do not reflect the driving range in real world driving. Results achieved for battery electric bZ4X Touring Electric SUV is based on consumption rate of 168 Wh/km using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) accepted by the ADR 81/02 (displayed on the Energy Consumption label affixed to the car). The electric range and the energy consumption values were determined using a fully charged battery in a laboratory test and are not reflective of real world driving. Actual driving range may vary depending on accessories fitted, battery age and condition, climate, driving style, use of heating/cooling, traffic conditions, and vehicle load. - Product and company names are trademarks of their respective owners.
- Fitment of towbar requires deactivation of the kick boot sensor feature. Towing capacity subject to regulatory requirements, tow bar and vehicle design and towing equipment limitations. Ask your Dealer for Toyota Genuine tow bar capacity and availability details.
- Only Qi-supported devices compatible. Refer to device manufacturer. May require additional purchase of accessory to support wireless charging.
- Vehicle to Load (V2L) supports electrical devices with a combined power consumption of up to 1500W at 220 VAC. V2L does not support Vehicle to Home (V2H) or Vehicle to Grid (V2G) charging. V2L is powered using the high voltage battery and extended use will decrease driving range. Never leave the vehicle unattended when using the V2L system. Refer to Owner's Manual for guidance.
- CarPlay® is a trademark of Apple, Inc. registered in the U.S. and other countries. Android Auto™ is a trademark of Google LLC.
- Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely.
- See toyota.com.au/services/connected/terms-conditions for T&Cs.
- Complimentary periods commence upon delivery date. Fees may apply there after. Not available outside Australia, if services disabled or terminated or after Telstra 4G sunset. Dependent on enabled DCM, GPS signal strength, mobile network coverage, mobile app data (at user's cost), enabled push notifications and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual or toyota.com.au/services/connected for explanation of limitations. Please drive safely.
- The myToyota Connect App supports vehicles with a Build date from 2009 onwards, with or without Toyota Connected Services. Requires compatible device and app installation, mobile data (at user's cost), Australian network reception, GPS signal, enabled push notifications and other factors outside Toyota's control which can limit functionality. Features vary by model and may change. See toyota.com.au/services/connected for more information.
