A high-capacity 74.7kWh CATL battery delivers the 522km range² to roam, the battery is engineered for durability, long-term performance and reliability, supported by an advanced cooling system designed to remain stable under high load and demanding conditions.

With up to 150kW DC fast charging takes you from 10-80% in around 30 minutes³. Compatible with Australia's largest fast-charging network Recharge fast. Get back out. Go again.

And because it wears the Subaru badge, capability isn't optional, it's standard. Symmetrical All-Wheel Drive. X-Mode traction control with Multi-Terrain Monitor and Downhill Assist Control plus 211mm ground clearance⁴.
