(1) Range and energy consumption values are calculated based on the WLTP combined cycle test procedure. Real world values will vary depending on many factors such as driving style, route, climate, weather and road conditions, vehicle and battery condition, use and accessories. Values for purpose of the comparison amongst the vehicle only. (2) Range and energy consumption values are calculated based on the NEDC test procedure and according to ADR 81/02. Real world values will vary depending on many factors such as driving style, route, climate, weather and road conditions, vehicle and battery condition, use and accessories. Values for purpose of comparison amongst vehicles only. (3) 6 years from the date of vehicle registration or 150,000km (whichever comes first). See your service and warranty manual for full details. (4) 8 years from the date of vehicle registration or 160,000km (whichever comes first). See your service and warranty manual for full details. (5) This system is a driver's convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. (6) Apple CarPlay® requires an iPhone 5 or later version of iPhone, running iOS 7.1 or above. The function of Apple CarPlay® requires mobile data for full capability. Compatibility and performance can vary and change. (7) Android Auto™ requires an Android 5.0 or later version of Android, installed with the Android Auto™ Application. The function of Android Auto™ requires mobile data for full capability. Compatibility and performance can vary and change. (8) Android Auto™ and Apple CarPlay® is available on, and compatible with, Infotainment Systems installed in select Leapmotor vehicles. Stellantis is not responsible for the availability, compatibility or use of applications, products and software supplied or supported by third parties. (9) Tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. Actual fuel consumption [and CO2 emissions] depends on factors such as traffic conditions, vehicle condition, driving style, and any accessories fitted. (10) See [leapmotor.net/au/assistance](https://leapmotor.net/au/assistance) for details.
