Dimensions	Dynamic Cab Chassis	Premium	Performance
Overall length (mm)	5,413	5,457	
Overall width (mm)		1,971	
Overall height (mm)		1,925	
Wheel track - front / rear (mm)		1,660/1,660	
Wheelbase (mm)		3,260	
Minimum turning radius (m)		6.75	
Approach angle (°)		31	
Departure angle (°)	N/A [^]	19.3	
Ramp-over angle (°)		17	
Ground clearance unladen (mm)		230	
Wading depth (mm)	530~	700	
Seating Capacity		5	
Tub capacity (L)	N/A [^]	1,200	
Kerb weight (kg)	2,600	2,710	2,775
Gross vehicle mass (kg)	3,500	3,500	3,500
Gross combined mass (kg)	5,750	5,750	6,650
Max. front axle load (kg)	1,651	1,651	1,700
Max. rear axle load (kg)	1,927	1,927	1,900
Towball download weight (kg)	250	250	350
Performance			
Driven wheels	All-wheel drive		
Drivetrain type	Dual Mode Off-road Super Hybrid		
Front motor type	Permanent magnet synchronous motor		
Front motor maximum power (kW)	170		200
Front motor maximum torque (Nm)	310		360
Rear motor type	Permanent magnet synchronous motor		
Rear motor maximum power (kW)	150		
Rear motor maximum torque (Nm)	340		
Engine type	Hybrid Special Longitudinal High-Power Engine		
Engine Capacity	1.5-litre turbo		2.0-litre turbo
Engine maximum power (kW)	135		180
Engine maximum torque (Nm)	260		380
Combined maximum power (kW)	321		350
Combined maximum torque (Nm)	650		700
Acceleration 0-100km/h (seconds)	N/A [^]	5.7	5.5
Battery type	BYD Blade Battery		
Battery capacity (kWh)	29.6		
Fuel tank capacity (L)	60		
*Combined fuel consumption - SOC >25% (l/100km)	2.0 [^] (NEDC)	2.0 (NEDC)	1.3 (WLTP)

Notice:

1. All weights, masses, volumes and dimensions are approximate only, may vary between individual vehicles, and must be independently verified prior to the fitment of accessories, towing, or any reliance on such values.
2. Fuel consumption figures are based on laboratory testing and may not reflect real-world driving conditions. Results were obtained using new, standard vehicles without optional accessories or modifications and may not be replicable. Shark 6 Dynamic Cab Chassis & Shark 6 Premium based on ADR81/02 and Shark 6 Performance based on ADR81/03
3. Specifications marked with ^ are indicative only and will vary depending on the weight, dimensions, and configuration of the tray or body fitted to the BYD Shark 6 Dynamic Cab Chassis. Figures shown are based on a standard reference configuration and may not reflect the specifications of your specific vehicle once a tray or body has been installed. BYD Australia recommends consulting an authorised BYD dealer or a certified tray/body builder to determine the applicable figures for your intended configuration.
4. Before towing, customers should consider the vehicles limitations, including towing capacity, Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and manufacturer-specified kerb weight, and must ensure that applicable front and rear axle load limits and payload capacities are not exceeded.
5. -Dynamic Cab Chassis maximum wading depth of 700mm is dependent on tray configuration. When fitted with the BYD Genuine Tray, maximum wading depth decreases to 530mm for the Dynamic Cab Chassis. Wading depth figures are measured under controlled test conditions. Always assess water depth and conditions carefully before attempting to wade. BYD Australia recommends reducing speed and exercising caution when wading.
