

The Multivan

Charismatic DNA.

Built entirely on the modular transverse matrix (MQB), the Multivan intentionally incorporates the DNA of its popular predecessors, which also significantly influences the new model generation's design.

The Multivan's distinctively timeless personality is stylishly carried over into today's automotive era.

An unrivalled sense of space.

Inside, the Multivan is more flexible and spacious than ever with a new modular seating system. With space for up to seven seats, the rear five seats can be moved and removed to suit your travel requirements, while the second row can also be fixed in a rear-facing position to create a face-to-face style seating configuration with the optional Conference seat package.

Proven quality.

Highly stable vehicle body, durable materials and high-quality workmanship.

State-of-the-art driver assistance systems*.

Front Assist with City Emergency Braking and Adaptive Cruise Control, Driver Alert, Blind spot Monitoring (Side Assist) with Rear Traffic Alert and Travel Assist fitted as standard.

Standard Equipment Life.

Variant

Short wheelbase - 7 seater
Long wheelbase - 7 seater
Long wheelbase - 8 seater
Diesel engine

Wheels and tyres

17 inch 'Dundrod' alloy wheels - Silver
235/55 R17 103H XL tyres with low rolling resistance
Alloy spare wheel, Tool kit with jack

Exterior

Body-coloured bumpers
Rear spoiler
Dark tinted rear windows
LED headlights with LED Daytime running lights, automatic headlight control, poor weather light and entry lighting
LED rear combination lights
'Gloss Black' power adjustable, heated and folding door mirrors, with front passenger lowering function
Heated rear window with wiper and washer system
Electric sliding door on the left and right

Exterior Cont.

Electric tailgate (opening/closing)
Surround lighting with logo projector
Windshield wiper intermittent control with light/rain sensor
Grab handles for driver and front passenger
Sun visors with vanity mirrors

Interior

Armrests on both sides of front seats
Armrests on both sides of seats in second row (inner side removable)
Carpet floor covering and carpet mats in the front
Cloth seat upholstery
Decorative trims, black
Glovebox illuminated
Leatherette wrapped multifunction steering wheel with touch control
Illuminated mirrors in sun visors, with airbag label on sun visor and B-pillar
LED luggage compartment lighting
Luggage compartment cover
Manual height adjustment for both front seats
Power adjustable lumbar support

Interior Cont.

30-colour ambient lighting, and footwell lighting in front and rear
Sun blinds in passenger compartment
Rear seat rail system allowing for longitudinal adjustment and preparation for optional Multifunction table
2 USB-C ports, wireless App-Connect~

Infotainment and Technology

Wireless App-Connect~ for Apple CarPlay® and Android Auto™ ~
Digital Cockpit
"Ready to Discover" infotainment system including 10 inch colour touch-screen display, including 8 loudspeakers
IDA Voice assistant and voice control
2 x USB-C ports in dashboard and 4 x USB-C charging sockets in rear

Air conditioning and sun protection

"Climatronic" 3-zone air conditioning system
Sun blinds in passenger compartment
Heat-insulating windows

Safety and Security*

Adaptive Cruise Control (ACC) stop & go with predictive speed limiter
Auto-dimming rear view mirror
Autonomous Emergency Braking Front Assist with Pedestrian and Cyclist Monitoring
Central locking system with keyless entry/start
Driver Alert System
Driver and front passenger airbags
Side and curtain airbags for driver and front and rear passengers, centre airbag in front
Electric child lock
Front and rear seatbelt warning indicator, audible and visual
Lane Assist
Park Distance Control front and rear
Proactive passenger protection system
Rear-view camera
Swerve support and oncoming vehicle braking when turning
Tyre pressure monitoring system
ISOFIX and top tether child seat mounting points for seats in 2nd row and 3rd row
3-point seat belts with seat belt and lap belt pretensioner in front and height adjustment

* Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

~ App-Connect is compatible for selected apps with the latest smartphone versions of iOS and Android, active data service, optional connection cable (sold separately).

Stylish interior.

Clever, sustainable and atmospheric

Designed for your everyday adventures, offering unparalleled comfort and convenience. Step inside to discover a revolutionary interior that seamlessly blends cutting-edge digital innovation, practical functionality, and a bold, progressive design.

- 01** Multifunction leatherette steering wheel with touch control
- 02** Mobile phone interface
- 03** 25.4 cm (10-inch) colour touch display
"Ready 2 Discover" radio
- 04** Electromechanical parking brake button
- 05** Glove compartment (illuminated)
- 06** USB-C charging socket
- 07** Digital instrument cluster
- 08** Compartment with 2 0.5-litre bottle holders
- 09** Gear selector (Shift-by-Wire)
- 10** Engine start button (Keyless Start)
- 11** Air Care Climatronic air conditioning system with 3-zone temperature control
- 12** Background lighting - 30 standard colours
- 13** Wireless App-Connect~ for Apple CarPlay® and Android Auto™~

Arrive Safely.

A new level of driving safety.

Advanced Driver Attention & Drowsiness Monitor. Know when it's time to stop with the Advanced Driver Attention & Drowsiness Monitor, monitoring your behaviour behind the wheel, and alerting you if it seems as though you're dozing off. | L |

Seatbelt warning. Visual warning when the engine is started and an audible warning is emitted, if the driver's seatbelt is not fastened. | L |

Airbags. Front, side and curtain airbags provide the best possible protection in the event of head-on or side impacts. | L |

Cruise Control with speed limiter. At 30km/h and above, the system maintains the set speed throughout uphill and downhill inclines when activated. | L |

Anti-lock Braking System (ABS). Prevents the wheels from locking and thereby maintains manoeuvrability. | L |

Electronic Stabilisation Program (ESP). Standard feature that prevents under- and over-steering through targeted braking of the individual wheels. | L |

Traction Control Systems (TCS). Prevents wheels from spinning excessively. | L |

Emergency Assist. "Emergency Assist" (partial control of the vehicle in a medical emergency) can detect the driver's inactivity and automatically keep the vehicle in lane, even bringing it to a standstill if necessary. This allows the system to actively help to prevent an accident or mitigate the consequences of an accident. | L |

Hill Hold Assist. Prevents the vehicle from rolling back on inclines, making it easier to start off on uphill slopes. | L |

Adaptive Cruise Control with Stop & Go. Experience effortless driving with Adaptive Cruise Control (ACC) with Stop & Go and a speed limiter. ACC maintains your selected speed and automatically adjusts to keep a safe distance from the vehicle ahead. It can even bring your vehicle to a complete stop and restart automatically when traffic moves, ensuring a smooth and stress-free drive. The speed limiter ensures you never exceed your chosen maximum speed, adding an extra layer of safety. | L |

Proactive passenger protection system in conjunction with "Front Assist". The proactive passenger protection system is a supportive system that initiates measures to protect the vehicle occupants in dangerous situations, but cannot prevent a collision. The system uses sensors to detect a potential accident situation (e.g. in the event of emergency braking). Immediately after this, the driver's and front passenger's seat belts are automatically pre-tensioned to achieve the best possible protection from the airbag and belt systems. In the event of a highly critical unstable driving situation, such as excessive oversteering or understeering, the side windows are also closed (leaving only a small gap). | L |

Front Assist with Pedestrian Monitoring*. Uses a radar system to detect situations where the distance to the vehicle in front is critical and reduces the vehicle's stopping distance. In dangerous situations, the system alerts the driver using visual and acoustic signals, and with a warning jolt of the brakes. | L |

Front Cross Traffic Assist*. When pulling out of a busy intersection, Front Cross Traffic Assist warns you if something comes in your path, and can even brake automatically in emergencies. | L |

Electromechanical power steering. The speed-dependent steering with active reset improves your driving feeling and safety and achieves steering precision. | L |

Multi-Collision Braking. Triggers braking after a collision, with the aim of preventing secondary crashes, activated when two independent sensors detect an accident. After a short delay, the vehicle begins a phased braking action down to 10 km/h, during which the driver can take over at any time. | L |

Rear View Camera. The "Rear View" reversing camera enhances visibility behind the vehicle, making parking easier. It displays the area behind the vehicle on the infotainment screen, with orientation lines to assist you in parking accurately. | L |

Area View and Rear View Camera. "Area View" system uses four cameras to provide real-time images of your vehicle's surroundings, creating a comprehensive plan view displayed on the infotainment screen. This feature helps you detect obstacles early, even in tricky situations. The "Rear View" reversing camera enhances visibility behind the vehicle, making parking easier. It displays the area behind the vehicle on the infotainment screen, with orientation lines to assist you in parking accurately. | L |

Front and Rear Park Distance Control (PDC)*. Emits audible warnings when obstacles are detected in front of or behind the vehicle when parking, and also provides a visual display of the vehicle's distance from these obstacles. | L |

Lane Assist lane departure warning. "Lane Assist" lane departure warning uses the standard multifunctional camera on the dash panel to detect lane markings. If the vehicle comes too close to a lane marking, then the system warns the driver by making a corrective steering intervention. The steering intervention can be overridden by the driver at any time.

If the driver's hands are removed from the steering wheel, the system prompts the driver to take over steering after a few seconds with a display on the instrument cluster display and audible warnings. Emergency Assist is activated in the event of no response. | L |

Lane change assist "Side Assist". Lane change assist "Side Assist" supports the driver in monitoring the traffic behind the vehicle, when overtaking or changing lanes. Radar sensors monitor the area behind the vehicle. The system measures the distance and speed difference to other vehicles, and warns the driver with a visual warning if there is a vehicle in the blind spot or approaching the vehicle. The LED warning light in the respective exterior mirror housing lights up permanently in a warning situation. | L |

Swerve support and oncoming vehicle braking when turning. Swerve support detects static obstacles and a swerving manoeuvre initiated by the driver. In this situation, swerve support helps to avoid the obstacle by braking individual wheels and initiating a corrective steering intervention. Oncoming vehicle braking can help to prevent an impending collision with an oncoming vehicle when turning left. An acoustic and visual warning is emitted when the turn signal is activated. If the driver does not react, the vehicle is automatically braked and kept in lane. Oncoming vehicle braking is only available when the turn has been started with the turn signal activated and the steering wheel turned at up to around 15 km/h. | L |

Travel Assist. Travel Assist enables semi-automated lateral and longitudinal guidance across the entire speed range. Within the limits of the system, the vehicle can maintain an individually pre-selected distance from the vehicle in front and remain in the preferred position within the lane (adaptive lane guidance). Travel Assist can also provide active support when changing lanes on the motorway. Travel Assist uses the same sensors as Adaptive Cruise Control ACC, "Lane Assist" lane departure warning, and lane change assist "Side Assist". | L |

Volkswagen Accessories

Volkswagen Genuine Accessories ensures your Volkswagen remains 100% Volkswagen. The extensive range of Multivan Accessories provides you with the opportunity to adapt your vehicle even more precisely to your individual needs. From transport, exterior and interior solutions that perfectly complement your Volkswagen.

01 Loading sill protection plate. A practical and attractive accessory to help prevent scratches to the paintwork when loading in and out of the boot compartment. Available in silver, stainless steel look or black grained.

02 Towbar Kit. The genuine towbar ensures seamless integration with the Multivan chassis. Made from high quality materials and tested to meet stringent Australian and Volkswagen engineering standards. Please refer to the owners manual or vehicle specifications for towing capacities.*

03 Boot Liner. A practical, robust, washable boot protection liner. Helping to protect the boot from dirt and moisture. Compliments your Multivan boot space for everyday use. Behind 3rd row seat.

04 Boot Tray. Premium protection for your Multivan boot space. The Volkswagen boot tray fits seamlessly and features raised edges to keep your cargo intact. Highly durable and impact resistance, protecting the luggage compartment from damage, moisture and dirt. Behind 3rd row seat.

05 Reversible luggage compartment mat. Volkswagen Genuine reversible floor covering with fold-out loading sill protection. This custom-fit, reversible cargo liner features a soft velour top and a non-slip plastic nub underside to prevent cargo from sliding and protect your bumper from damage.

06 Dash Cam. All in view ahead of your Multivan: The Volkswagen dash cam records any activity on the roads while you are driving or when your vehicle is parked. Front and rear camera system.

Please contact your local dealer for availability.

07 Sunblind. The Volkswagen Genuine sun blind offers a seamless fit as well as functionality. Added privacy without comprising on visibility for your passengers. Manufactured from OEM Volkswagen graded material with aids in blocking out harsh UV sunrays and excessive heat.

08 Weathershields. The Multivan weathershields utilise a sleek, modern design on the front deflectors to let fresh air in and helps keep the wind and rain out.

09 Mudflaps. Front and rear Mud Flaps add style whilst providing some protection from road debris.

10 Roof Racks. Roof racks precision tailored for your Multivan with an aerodynamic, lightweight design.

11 Roof Box Range. The aerodynamically designed roof box can be the perfect transport solution for your additional cargo and luggage. The roof box has been designed with ease in mind, having an innovative 'Duo-lift' system, which can be opened from both sides. Roof box range available in 340L or 460L capacities.

Requires roof racks (sold separately).

*Towing capacities are applicable to Volkswagen Genuine Accessory Tow Bar. Towing capacity figures are maximum figures and actual towing capacity depends on factors including the laden mass of the vehicle, driving conditions and fitment of any accessories. Volkswagen Australia does not endorse or will not be held liable for any claim, loss or damage arising from the use or fitment of electronic trailer brakes.

Equipment Highlights

01 IQ.LIGHT. Features of IQ.Light include: LED matrix headlights with individually activated light-emitting diodes to determine the brightness and direction of the light cone, and thus provide variable illumination of the road depending on the situation.

Automatic lighting control – when activated – for the automatic change from daytime running light to dipped beam by a light sensor when brightness changes.

Integrated poor weather light to reduce glare and dazzling of other road users on wet roads by reducing the illuminance directly in front of the vehicle and avoiding troubling reflections of the headlight on the reflective surface of the road.

02 Dynamic Light Assist. Dynamic Light Assist is an advanced main-beam control system for LED matrix headlights. When activated, it uses a camera to detect other road users and their distance from your vehicle, automatically switching between main and dipped beams to prevent dazzling. This feature engages automatically at speeds above 60 km/h in the dark, ensuring optimal visibility and safety during nighttime driving.

Dynamic Headlight Range Control with Dynamic Cornering Light automatically adjusts the headlight tilt based on the vehicle's load, ensuring optimal road illumination without dazzling oncoming traffic. Additionally, it provides enhanced visibility around curves by illuminating the inside of the turn as you steer, extending your field of view when automatic lighting control is activated. | L |

03 Easy Open and Close Electric Tailgate and Sliding Doors. With just a simple foot sweep below the rear bumper, the tailgate opens and closes automatically, making loading and unloading a breeze. | L |

04 Panoramic Roof. For the first time ever, the Multivan offers a stunning panoramic glass roof. This two-part skylight stretches from the cockpit to the second row of seats, providing breathtaking views of the sun, moon, and stars. With a special UV coating, it effectively reduces heat radiation, ensuring comfort and protection for all passengers.

Window Dimensions: 913 mm x 403 mm at the front and 900/910 mm x 1,284 mm at the rear. Enhanced Interior Height: Adds an extra 34 mm, bringing the total height to 1,346 mm. Privacy Glazing: 90% darkening for added privacy. "LowE" Coating: Laminated safety glass reduces heat radiation by 78%. Optionally available. | L |

05 Good-night package. Whether you're on a weekend trip, attending a festival, or embarking on an extended tour, the new optional Good-Night Package lets you comfortably spend the night in your Multivan. The foldable bed construction sets up quickly above the folded-down second and third rows of seats, without needing to remove the seats. Even with the bed in place, up to 5 people can travel with you, and there's ample storage space. Darken all windows, including the panoramic roof, with magnetic blinds for a restful sleep. Ventilation slots on the front doors ensure fresh air circulation, even when the windows are closed. For added convenience the package also includes a folding table and 2 folding chairs.

Foldable Mattress: Bed dimensions: 2.02 m length, 1.21 m width | L |

Full vehicle specifications are available at www.volkswagen.com.au

^The Start/Stop system is designed to reduce fuel consumption and CO2 emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner’s manual for full operating information.

**Fuel consumption figures according to ADR 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.

1. The Unladen Mass (UM) includes 10L of fuel, vehicle fluids and no occupants. Figures quoted are for base model vehicles only.

2. Payload figures determined by subtracting ‘Unladen Weight’ from total ‘Gross Vehicle Mass’ (GVM). A vehicle's final payload, given the different configurations, can only be determined by weighing the individual vehicle and comparing to the known GVM. Figures quoted are for base model vehicles only.

≠When fitted with Volkswagen Genuine Tow Bar. Towing capacities are applicable to Volkswagen Genuine Accessory Tow Bar. Towing capacity figures are maximum figures and actual towing capacity depends on factors including the laden mass of the vehicle, driving conditions and fitment of any accessories. Volkswagen Group Australia does not endorse or will not be held liable for any claim, loss or damage arising from the use or fitment of electronic trailer brakes.

5 years Unlimited Kilometre Warranty

At Volkswagen, we pride ourselves on the highest quality standards that come with German engineering.

We back this commitment with a 5 year unlimited kilometre warranty on all new Volkswagen vehicles¹.

1 year Roadside Assist

Every new Volkswagen petrol, diesel, and plug-in hybrid vehicle comes with a 1 year Roadside Assist membership².

That's 24 hour roadside assistance, emergency accommodation, car rental and towing as well as property and other assistance, all included for added peace of mind.

Volkswagen Care Plans

Volkswagen petrol, diesel and plug-in hybrid vehicles are eligible for a Volkswagen Care Plan³, covering your first 3 or 5 scheduled services, providing you savings off the total Assured Service Pricing RRP across a wide range of models. It's convenient, hassle-free scheduled servicing easily available for purchase at your local Volkswagen Dealer.

Assured Service Pricing

Assured Service Pricing⁴ gives you the comfort to know the cost of your first 5 scheduled services, when servicing your vehicle at any authorised Volkswagen dealership.

Our Volkswagen dealers have access to the latest diagnostic equipment and tools. Plus, they use Volkswagen Genuine Parts[®] to ensure your Volkswagen stays a Volkswagen.

1. Conditions and exclusions apply, see <https://www.volkswagen.com.au/en/owners-service/warranty.html>. Your rights under this warranty are provided in addition to, and in some cases overlap with, consumer guarantees under the Australian Consumer Law and do not limit or replace them.

2. Volkswagen Assist (Roadside Assistance) Conditions and exclusions apply, see <https://www.volkswagen.com.au/en/owners-service/service-repairs-parts/roadside-assist.html>.

3. Volkswagen Care Plans are available for purchase online or from participating Volkswagen Dealers for eligible vehicles. Care Plans cover standard items included in each scheduled service. For information on service intervals and when Care Plans can be purchased please visit <https://www.volkswagen.com.au/en/owners-service/service-repairs-parts/care-plans.html>. Exclusions, model-specific intervals, and full program terms and conditions apply.

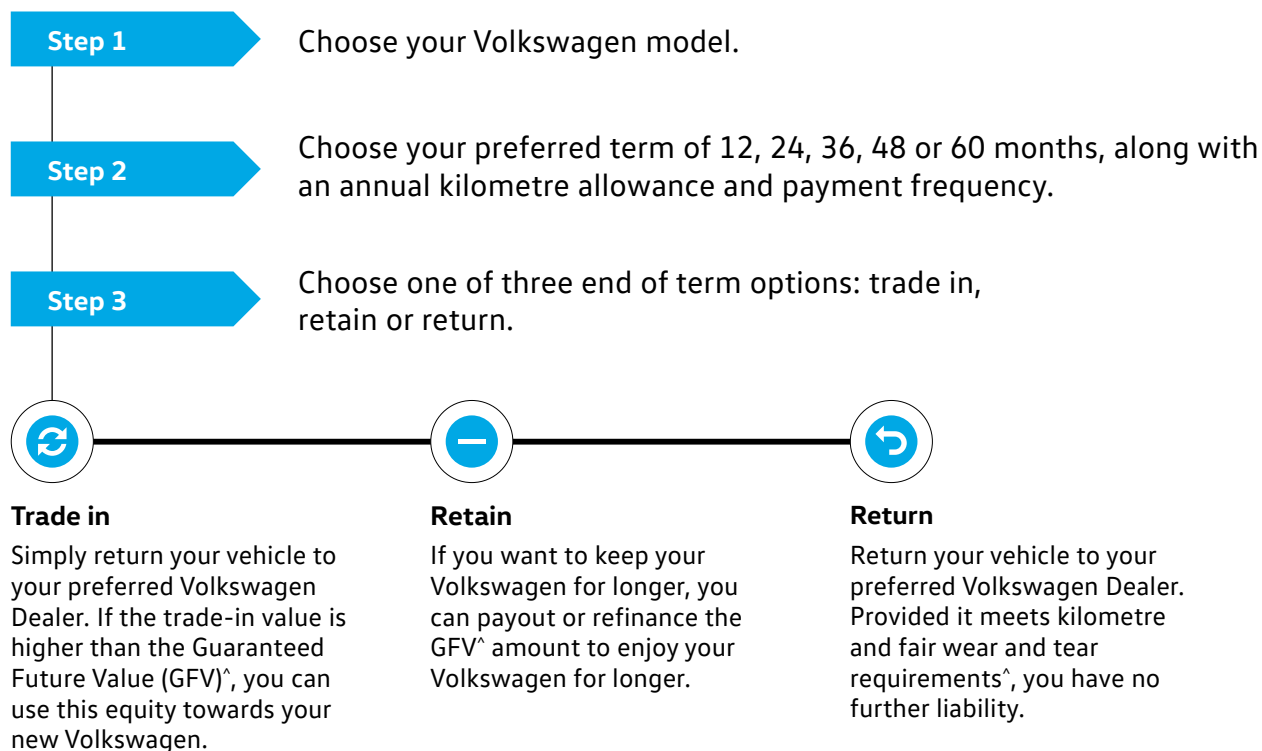

4. Volkswagen Assured Service Pricing is current as at the date the customer obtains a price from the Volkswagen Service Pricing Guide or from a participating authorised Volkswagen dealer and is subject to change without notice. Customers are advised to confirm current pricing on the Volkswagen Service Pricing Guide or with an authorised Volkswagen Dealer on the day of each scheduled service. Volkswagen Assured Service Pricing applies to the cost of standard items in each of the first 5 standard scheduled services of your vehicle. Exclusions and conditions apply. For more details on service intervals, the eligible models, pricing, items not included and for full terms and conditions, please see <https://www.volkswagen.com.au/app/locals/service-pricing-guide>. Volkswagen Australia reserves the right to at any time modify or discontinue the Volkswagen Assured Service Pricing program.

Volkswagen Choice[^]

Guarantee the minimum future value[^] of your Volkswagen

Fortunately, there are still some guarantees in life. Volkswagen Choice[^] is our Guaranteed Future Value[^] program, a flexible finance solution that provides you with the assurance of knowing exactly what the minimum future value[^] of your vehicle will be at the end of your loan. Once your loan ends, you have the option to trade in, retain or return your vehicle.

Whether you are selecting your new Volkswagen for business or personal use, you choose your preferred loan term, along with an annual kilometre allowance and payment frequency that best suits your requirements. Enjoy the confidence that comes from having locked in a minimum future value[^] up front, and knowing that, as long as the vehicle is in good condition, has met the agreed kilometre usage and is undamaged – you and your business will never be out of pocket when trading your vehicle in to cover the final payment.

[^]For approved applicants of Volkswagen Financial Services (VFS) ABN 20 097 071 460, Australian Credit Licence 389 344. Volkswagen Choice has a Guaranteed Future Value (GFV) which is the minimum value of your vehicle at the end of your finance contract as determined by VFS. If you decide to return your vehicle to VFS at the end of your term, VFS will pay you the agreed GFV, which will be put against your final payment subject to fair wear and tear conditions and agreed kilometres being met. At the end of your term, you can elect to (1) trade-in; (2) return; or (3) retain the vehicle by paying the GFV owed to VFS at the end of the loan term after all repayments have been made. You will be liable for any loan contract deficit and additional charges apply if you exceed the nominated kilometre allowance and/or the vehicle is not in an acceptable condition. Available on new and demonstrator Volkswagen vehicles for selected models. Contact your nearest Volkswagen Dealer to check eligible vehicles for this program. To see if this product is right for you, please see our Target Market Determination on our website and/or seek independent advice. Subject to a credit assessment and VFS lending criteria. Fleet, government, rental and used car buyers, hire car and chauffeur companies excluded.
